

Sustainability Goals and Accomplishments

Goals and Accomplishments	Goal	In-Process/ On-Going	Completed
Identify Greenhouse Gas Emissions inventory baselines and specific targets for improvements, on a regional and local level	✓		
Expand sustainability outreach/education including website "Going Green" section			✓
Initiate Smart Growth/LEED Training for selected staff members		✓	
Develop policy and plan for 100% conversion to clean/green fleet	✓		
Initiate a Pilot AB 811 Loan Program	✓		
Facilitate energy audits for top users and support energy efficiency actions			✓
Implement a Curbside Household Hazardous Waste Program	✓		
Expand the number of Household Hazardous Waste Events at City Hall/Corporate Yard	✓		
Develop an Environmentally Preferable Purchases and Practices Policy		✓	
Expand outreach & education for waste reduction and recycling, water and natural gas conservation, and energy efficiency			✓
Implement energy efficiency improvements of City facilities as recommended by Imperial Irrigation District (IID)			✓
Identify water usage benchmarks and develop water conservation goals	✓		
Jointly (City and IID) offer an energy product (Energy Meter) to City residents at a reduced cost	✓		
Investigate program implementation of: food waste recycling and non-controlled medication disposal		✓	
Expand promotion of commercial recycling program			✓
Conduct Green Workshops and coordinate energy audits with Homeowners associations		✓	
Seek opportunities for energy and environmental grants, including a bike path grant		✓	
Install LED flash warning devices: Adams St, Eisenhower Dr, and Avenida Bermudes	✓		
Replace video detection system at three intersections	✓		
Establish a Compressed Natural Gas fueling station (Fire Station)			✓
Host shred day events		✓	
Participate in Desert Cities Energy Partnership to achieve funding for energy programs and events		✓
